

Stile Libero

Stile Libero anti slip tiles have a beautiful mid century stone look. Ceppo di Gre was widely used in modern architecture because of its striking pebble stone markings. The warm grey of the stone, available in three shades, gives these practical porcelain tiles an authentic look. The design of these tiles has a hidden advantage. Because the markings are so bold, they work to confuse the eye and help smaller rooms feel larger. Being both beautiful and practical, Stile Libero anti slip tiles are a great choice for the bathroom or kitchen floor. In addition the markings help disguise everyday use and as such won't highlight a busy day. That said these tiles are easy to maintain and make a great choice for well trodden areas.
