

Formae

Formae metro style tiles are a little larger than a standard metro tile. This glazed ceramic wall tile series stands out from others with its signature surface details. Three elegant surface patterns give this range a wonderful art deco feel. Each pattern has a choice of subtle neutral gloss glazes. For a bolder look there is also a solid gloss black or eau de nil. The Formae metro look has an added benefit of a full set of glazed edge and finishing pieces. Each capping and skirting tile has a glazed quarter round piece to continue the tiles seamlessly around corners. The tiles also have a quarter round to edge with. So if you are planning a niche in the shower there is no need for metal or plastic trims.
