TECHNICAL DETAILS

Product: Through Bodied Porcelain Stoneware

Surface Finish: Honed

Manufacturing Standard: BS EN 14411G (full details available on request)

Use: All internal walls and floors

Variation: V2

Actual Size: Please note that these tiles are supplied with sharp 90 degree edges for installation with a 2 or 3mm grout joint. The dimensions provided above are exact and therefore the grout joint width should be added to reflect the overall module size when preparing setting out drawings.

Installation: We recommend that this range is bedded in a solid bed of polymer modified adhesive in accordance with BS5385: Parts 1, 2, 3 and 4. Adhesive and grouts required may vary in relation to the specific nature of the installation, and proposed substrates. Please enquire with our sales department for further information.

Grout Joint: These tiles should be installed with a minimum 3mm joint on floors and 2mm joint on walls.

Weight per square metre: All Sizes – 25 kg/m²
