

Stracciatella

Stracciatella is a porcelain tile that embraces the trend of terrazzo effect finishes. The foundation of this tile range is a single sized hexagon tile decorated with a tutti frutti chip pattern. There are five angular graphic accents picked out in a brushed colour effect. Stracciatella is a hardwearing wall and floor tile that so easily adds a shot of colour wherever it is installed. The multicoloured design on these tiles is certainly very forgiving, being easily paired with other colours. Three colourways and a plain white make up this so straightforward colourful tile range. Each colourway has a mix of the five designs. These designs are not available individually as a result of the random selection packed in the box. These tiles are suitable for kitchens and bathrooms.

TECHNICAL DETAILS

Product: Through bodied porcelain stoneware.

Surface Finish: Natural

Slip Resistance	Natural
DIN 51130	R10

Manufacturing Standard: BS EN 14411G
(full details available on request)

Use: All residential floors and light traffic commercial floors
All internal/external walls

Actual Size: Please note that these tiles are supplied with sharp 90 degree edges for installation with a 3mm grout joint. The dimensions provided are nominal and therefore the grout joint width should be included to reflect the overall module size when preparing setting out drawings.

Installation: We recommend that this range is bedded in a solid bed of Ardex polymer modified adhesive in accordance with BS5385: Parts 1, 2, 3 and 4. Adhesive and grouts required may vary in relation to the specific nature of the installation, and proposed substrates.

Grout Joint: These tiles should be installed with a minimum 3mm joint and grouted with Ardex FS Grout (suitable for joints up to 4mm)
