

# Magma

Magma is co-ordination without compromise. This elegant and natural looking onyx effect tile has enough personality to dress any tiled space. Magma has a high gloss finish making it easy to clean and adding a touch of glamour to the overall appearance. The three colour choices, equally bold in their markings, are surprisingly easy to pair with other tiles. We love the luxurious Onyx looks of Magma, especially the excellent colour variance making them so versatile. These tiles sit easily with others whether they be a simple matt concrete look or a wooden effect. For a bold feature tile in the bathroom, you may need to look no further.
