

Boiserie

Boiserie wall tiles are fairly unusual as tiling designs go. These tall glazed ceramic wall tiles stand side by side creating a half timbered effect. Although this look is very traditional, the modern glazes give these tiles a clean contemporary edge. Boiserie wall tiles are just one part of the look and need finishing top and bottom. For this purpose glazed dado and skirting pieces match the panels. In addition, quarter round edging pieces are available for all of the Boiserie tiles. Whether you are looking for a clean half tiling option or need something tougher than paint in the hallway, this range may be the answer.
