

Boston

Our Boston porcelain stoneware subway tiles are perfectly suited for walls. The rectangular shape of these tiles is a great proportion for fixing in a herringbone pattern. Use them in a traditional brick format fixed either horizontally, or for an up to the minute look fix them vertically. The six matt glazes have a silky soft surface, which combine with the round matt mosaic. Boston brings a light texture to the wall that can easily create a modern industrial look. Pair with larger format porcelain tiles on the floor to keep contrast. Because these are glazes porcelain they are stronger than ceramic wall tiles. Use these slender tiles on the floor in light traffic indoor areas.
