Waterfall is a unique stoneware collection that captures the natural beauty of sedimentary rocks. The tiles are porcelain, which gives them a realistic slate look. The tiles are available in a small collection of contemporary colours. The irregularities and variations in colour represent the passage of time, while the textures give the tiles a natural look and feel. These tiles are perfect for creating a sense of natural beauty in any project. Thanks to the high-quality materials and craftsmanship, this material will last for years to come.
